Product Introduce

Product components

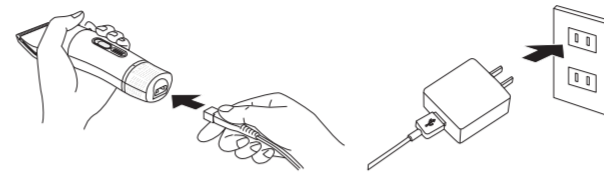

Specifications

Name	Electric Hair Clipper
Model	DTJ02
Material	ABS
Charging method	USB
Input	5V=1A
Power	10W
Battery Capacity	2000mAh
Charging Time	Appr. 3 hours
Continuous use time	about 4 hours
Power cable length	About 1.0m
Size	180 x 45 x 40mm
Weight	Appr. 230g

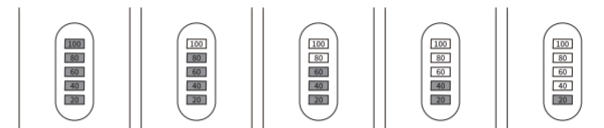

Charging Method

- Make sure that the switch is "OFF".
- Firmly insert the charging cable into the main unit socket.
- Plug the power adapter into an outlet.

- Confirm that the charging lamp has gone out. It will be fully charged in about 3 hours. You can use it for about 4 hours with one charge. (it depends on how often and how you use it.)

Full charge ← → Low power

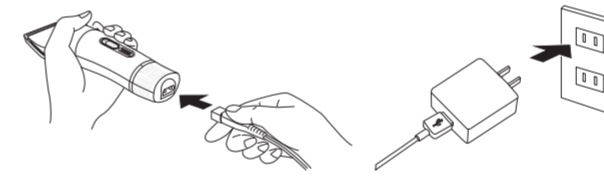

For long battery life

- Do not leave the switch on for a long time. Battery life will be shortened.
- When storing, be sure to fully charge before storing. Even if you do not use the product for a long time, recharge it once every six months.

How to use

- Make sure that the switch is "OFF".
- Select the cutting height.
 - 3 to 12 mm: Attach the attachment.
 - 0.8 to 2.0 mm (without attachment): Turn the dial to select the blade height. Align the convex part of the dial with the display of the cutting height to be used.
- Set the switch to "ON" for use. When using the AC type, connect the power adapter.
- After use, turn off the switch.

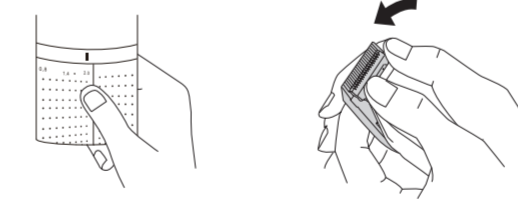

- Maintenance: attach the blade to the main body and store in a place with low humidity.

How to attach / remove the blade

※ Confirm that the switch is "OFF" and disconnect the power adapter.

How to remove the blade

- Set the dial to 2.0.
- Push the blade outward.

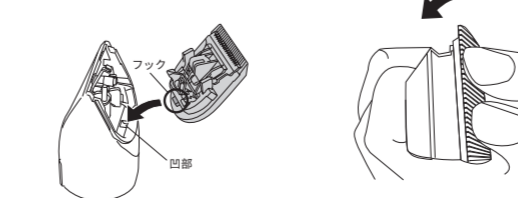

- Use force to remove the blade.

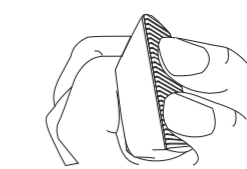

How to install the blade

- Insert the blade hook into the recess of the main body.
- Make sure it matches the main unit.

- Push it in until it clicks.

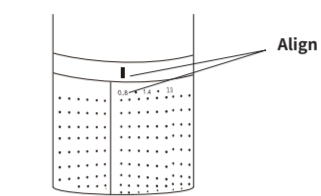

Install / Remove attachments

※ Confirm that the switch is "OFF" and disconnect the power adapter.

Install attachments

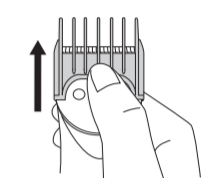

- Set the dial to "0.8mm".
- As shown in the illustration, attach the attachment to the blade and slide it all the way in.

※ Please slide it firmly until the attachment stops.
※ Please keep the dial at 0.8mm.

Remove attachments

- Remove it by pushing it up with your thumb as shown.

How to care

※ Turn off the switch and disconnect the power adapter before cleaning.

Wiping cleaning (main unit / each attachment)

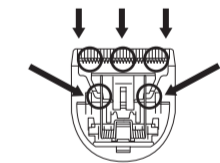

- Wipe off the dirt with a soft, dry cloth.
- If stains do not come off easily, squeeze a soft cloth soaked in "soap water" or "neutral detergent diluted with water" well.

Brush cleaning (body / blade)

- Remove the blade from the body.
- Remove the hair debris with the attached cleaning brush.

- Lubricate the blade and attach it to the body. Please add oil drop by drop in the arrow part of the picture.

Attention

- Never wash with water.
- Do not use alcohol, aniline, etc.
